

E02 standard public work budget

E02 tight 128-work budget

Supplied reference-policy/action-menu interventions, not learned repair. 4096 episodes reuse 512 underlying worlds across conditions and policies. Vertical axis zoomed. Remaining failures do not prove that more than 128 work is necessary; solver counterfactuals were not rerun. Original outcomes are preserved under their original catalogue. Development anchors are not fresh confirmation.
